**Summary of Change:** Allow other artifacts to be substituted for a Solution ConOps. Perform analysis for Technical Refresh programs and if it is determines that a Solution ConOps is not needed because an ORD is still valid, allow substitution of that artifact in lieu of the ConOps and forward to the JRC secretariat a memorandum to that affect.

**Reason for Change:** Many programs slated for a tech refresh were fielded prior to the requirement for a ConOps. The ORD was the standard acquisition artifact during that time. ANG has requested that the ORD or a comparable document be substituted in lieu of the ConOps. In doing so, time and effort would be avoided in preparation of a new document providing equivalent information.

**Development, Review, and Concurrence:** ASAG review and concurrence

**Target Audience:** Investment Analysis Teams, Acquisition Workforce

**Briefing Planned:** Yes.
